# Diagnostics & Allied Support

Investigations and support services listed by Deccan Malti Hospital.

## Diagnostic Services

### Radiology

Medical imaging can help clinicians assess and monitor a range of conditions.

### CT Scan

Computed tomography creates cross-sectional images to support clinical evaluation.

### Digital X-Ray

X-ray imaging supports assessment of selected bones and body areas.

### EEG

An electroencephalogram records electrical activity in the brain for clinical assessment.

### NCV

A nerve conduction study measures how signals travel through selected peripheral nerves.

### Pathology & Laboratory Services

Laboratory investigations provide information clinicians consider alongside symptoms and examination.

## Allied & Supportive Services

### Pharmacy

The hospital lists a 24/7 pharmacy service.

### Physiotherapy & Rehabilitation Centre

Physiotherapy and rehabilitation support movement, function and recovery goals.

### Ambulance Service

Contact the hospital to confirm current ambulance arrangements and availability.

### Please confirm availability and requirements directly.

The hospital team can advise about current service availability. An ambulance enquiry should be confirmed directly with the hospital. For a life-threatening emergency, call local emergency services or go to the nearest emergency facility.

# Critical Care & Rooms

Ask the hospital team about room categories, suitability and current availability.

## Emergency & Critical Care

### Casualty / Emergency Care

Emergency care category for urgent medical concerns.

### Intensive Care Unit (ICU)

Intensive-care category for patients requiring closer medical monitoring, as determined by the treating team.

### High Dependency Unit (HDU)

Higher-dependency care category; suitability is determined by the clinical team.

## Room Categories

### General Ward - Male

General inpatient accommodation for male patients. Confirm current availability with the hospital.

### General Ward - Female

General inpatient accommodation for female patients. Confirm current availability with the hospital.

### AC Single / Deluxe Room

Air-conditioned single-room category. Confirm the room category and availability with the hospital.

### Non-AC Single / Deluxe Room

Non-air-conditioned single-room category. Confirm the room category and availability with the hospital.

### Suite Room

Suite room category. Ask the hospital team about details and current availability.

### Room enquiries

Room type, suitability and availability are confirmed by the hospital. An online or telephone enquiry does not reserve a room. No room or ICU/HDU capacity figures are published in this guide.

# Infrastructure & Planning a Visit

Confirm current service details and eligibility with the hospital and relevant authority.

## Facilities & Patient Support

### Modular Operation Theatre

Modular OT with air-filtration infrastructure.

### Pentero Surgical Microscope

Supports magnified visualisation during selected procedures.

### CUSA Technology

Cavitron Ultrasonic Surgical Aspirator technology; suitability is decided by the treating specialist.

### In-house CT Scan

CT scan available within the hospital; imaging is advised based on clinical assessment.

### Pathology & Laboratory Services

Laboratory investigations that clinicians may use to support assessment and care.

### 24/7 Pharmacy

Hospital pharmacy service listed as available around the clock.

### Physiotherapy & Rehabilitation

Department for physiotherapy and rehabilitation support.

### Cashless Insurance Assistance

Ask about policy-specific network status; eligibility and approvals depend on the insurer.

### CMRF Guidance

Chief Minister's Relief Fund guidance; eligibility and assistance depend on programme rules and approval.

## Before your visit

Bring relevant previous reports, prescriptions and a list of current medicines if applicable. Ask the hospital to confirm appointment timing, service availability and room categories.

### Insurance & CMRF

Cashless insurance eligibility, policy coverage and approval depend on the insurer. Chief Minister's Relief Fund (CMRF) eligibility and assistance depend on programme rules and approval by the relevant authority. Contact the hospital and the relevant organisation for current guidance.
